

# Lesson 1

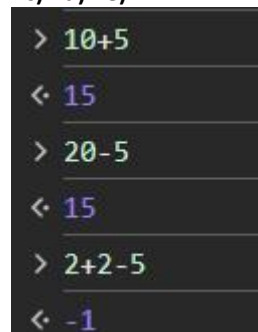

1a)

1b)

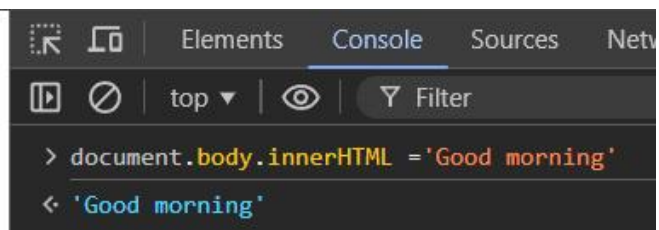

1c) 1d) 1e)

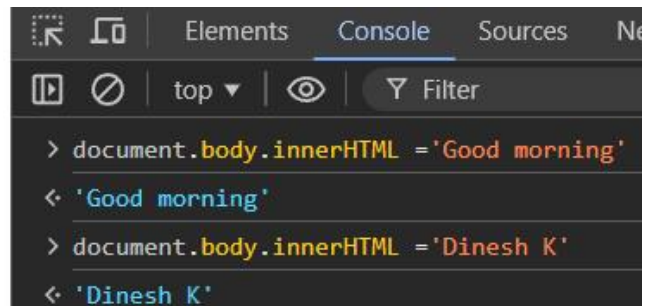

1f)

Good morning

1g)

Dinesh K

```
> document.body.innerHTML = 'Good morning'
< 'Good morning'
> document.body.innerHTML = 'Dinesh K'
< 'Dinesh K'
```

The image shows a browser's developer console with the 'Console' tab selected. It contains two lines of JavaScript code and their corresponding outputs. The first line is `document.body.innerHTML = 'Good morning'`, which returns the string `'Good morning'`. The second line is `document.body.innerHTML = 'Dinesh K'`, which returns the string `'Dinesh K'`. The console interface includes standard icons for opening the console, disabling it, and a filter button.
